GROWTHS UNDERGROUND.

Mammoth Fungi in Old Comstock Mines—Heavy Rocks Lifted by the Growing Plants.

From the Carson Times.

A gentleman who recently had occasion to explore the chambers, drifts and caverns of the old deserted Ophir and Mexican mines says fungi of every imaginable kind have taken possession of the old levels. In these old mines, undisturbed for years, is found a fungus world in which are to be seen counterfeits of almost everything seen in our daylight world. Owing to the warmth of the old levels and to the presence in them of a certain amount of moisture, the timbers have been made to grow some curious crops. Some of the fungi in the old chambers are several feet in height, and being snow white resemble sheeted ghosts. In places are what at a little distance appear to be white ovals, and there are representations of ovals with long beards, all as white as though carved in the purest marble. The rank fungus growth has almost closed some of the drifts. The fungi are of almost every variety of growth. Some kinds hang down from the timbers like great bunches of snow white hair, and others are great pulpy masses. These last generally rise from the rock forming the floor of the drifts and seem to have grown from something dropped or spilled on the ground at the time work was in progress in these mines years ago. These growths have in several places raised from the ground rocks weighing from ten to fifty and even one hundred pounds. Some of the rocks have thus been lifted over three feet from the ground. In the higher levels, where the air is comparatively dry, the fungi are less massive in structure than below, and firmer in texture. Some resemble ram's horns, as they grow in a spiral or twisted shape, while others four or five feet in length and about the thickness of a broom-handle, hang from the cap timbers like so many snakes suspended by the tails. One kind, after sending out a stem the thickness of a pencil to the length of a foot or two, appears to blossom; at least produces at the end a bulbous mass that has some resemblance to a flower. In all the infinite variety of these underground fungi it is somewhat strange that not one was seen at all like those growing in the light of day. Nothing in the nature of toadstools or mushrooms was found.

An Old Lady Much Shocked.

Mrs. Homespun threw down the paper and pulled her spectacles with a vicious jerk. "It's perfectly scandalous," she exclaimed. "For my part I can't see how any respectable woman ever could wear such a thing as that. When I was a gal we used to wear low necks and short sleeves, but mercy!" and here she cast a withering glance at the paper in her lap before flinging it to the floor. "Why, what is the matter, aunt?" asked Cicely, picking up the paper. "Matter! Matter enough, I should say!" cried the exalted old lady, "just look at that fashion plate there, if you are not ashamed to look at it. It is perfectly scandalous, I say." "Why, aunt!" said Cicely, her eyes brimming with fun, "that is only a liver-plaid picture!" "I don't care what kind of a new-fangled name they give it," persisted her aunt; "it's scandalous and disgraceful, and no woman that's got a spark of modesty about her would ever be seen in one of them."

Delivered From Her Dilemma.

Mrs. Hatch or Mrs. Reilly (she bore those names alternately) was for six years unable to make a final choice between two husbands in St. Louis. She was remarkably handsome, and the two men were deeply in love with her, while she seems to have been about equally in love with each, and was bound to each by a marriage ceremony. She deserted one and went to the other four times, on every occasion declaring that her decision was final. A few days ago she left Reilly and began proceedings for a divorce preparatory to a new marriage to Hatch. The rival husbands had for years threatened to kill each other. They agreed to meet in the office of a mutual friend who desired to make peace between them; but each armed himself with a pistol, and on sight they drew the weapons. Reilly was the quickest, and Hatch was shot dead.

Turpentine for Cuts and Bruises.

A correspondent of the Scientific American says: "Let any one who has an attack of the lockjaw take a small quantity of turpentine, warm it, and pour it on the wound, no matter where the wound is, and relief will follow in less than a minute. Nothing better can be applied to a severe cut or bruise than cold turpentine; it will give certain relief almost instantly. Turpentine is also a sovereign remedy for cramp. Saturate a piece of flannel with it and place the flannel on the throat and chest, and in every case three or four drops on a lump of sugar may be taken inwardly."

cisco (Havens & Co.); Andrew S. Brownell, Oak-

land.

OFFICE 240 MONTGOMERY ST., COR. FINE.

The Object of This Association

is to provide life insurance for its members, their heirs or

beneficiaries, by mutual subscription of premiums

in good health, in order to equalize the risk of

accident or mortality, and to furnish the aid so

needed at the moment of death to the members.

The plan of this Association combines the

principles of the mutual Life Companies and Co-

operative or Society Societies. It rejects the

defective portion of each, such as the large

premiums and expenses charged by the one and

the ungraded assessment of the other.

In this Association each member pays the

actual expense of his insurance for the time it is

carried. A fund—the amount of one assessment

from each member—will be carried, which fund

will guarantee the payment of the full sum due

from the number of members at the time of the

death of a member.

Every dollar collected from the members for

assessments will be paid to the beneficiaries.

The general expense will be met by the member-

ship fee and the fee for notifying and collect-

ing assessments.

Any person between the ages of fifteen and

sixty-four, inclusive, with proper qualifications,

may become a member, and must submit applica-

tion on the printed form furnished by the Asso-

ciation, accompanied by the membership fee, a

pass suitable medical examination, and be ac-

cepted by the Committee on Applications.

The benefit will be the amount (\$1000, \$2000,

\$3000 or \$5000) named in the Certificate of Mem-

bership, provided one assessment from all the

members of the class named in the certificate, and

further provided that members over fifty-

four years of age, on joining, shall be limited to

\$5000 benefit.

Assessments shall be graded for the different

ages of members as follows for each \$1000 ben-

efit:

Under 20 years, \$0.70 Under 25 years, \$2.10

Under 30 years, \$3.50 Under 35 years, \$4.80

Under 40 years, \$6.20 Under 45 years, \$7.50

Under 50 years, \$8.80 Under 55 years, \$10.10

Under 60 years, \$11.40 Under 65 years, \$12.70

Under 70 years, \$14.00 Under 75 years, \$15.30

Under 80 years, \$16.60 Under 85 years, \$17.90

Under 90 years, \$19.20 Under 95 years, \$20.50

Under 100 years, \$21.80

TUESDAY, MARCH 12, 1881

INVOLUNTARY MANSLAUGHTER.

The trial of Mrs. Hamilton for the shooting of her husband has been concluded at Sacramento. The verdict was "involuntary manslaughter." Sentence will be passed on April 4. Hamilton was a locomotive engineer. His wife shot him down deliberately, through jealousy of a girl named Nettie Winkler, to whom her husband had paid some attentions. The woman is either mad or a murderer, and she should have been sent either to a mad house or to the scaffold. The extraordinary verdict in this case will allow the Court to impose a sentence of imprisonment for ten years, and it is to be hoped that, in the interests of decency and justice, the Court will give this woman the utmost punishment that the law allows. There appears no ground for any presumption of insanity in her case.

The Lassen Advertiser says of the Eagle Lake scheme: "Half a mile of tunnel would give its (Eagle Lake's) pure water to the thirsty soil. Tunnels cost half a million a mile. Half that sum invested here would irrigate Spanish Springs and Warm Springs valley, containing miles and miles of the finest land in the State, within two miles of the overland railroad, and near to the Comstock, the best hay and grain market on the coast."

A new way of detecting Nihilists has been discovered in St. Petersburg. The glass nitro-glycerine bombs which the Nihilists carry in the tail pockets of their coats make them extremely careful how they sit down. When a Russian is noticed to carefully gather up his coat tails before seating himself, he is at once arrested on suspicion of being a dangerous man.

LAWS OF THE STATE OF NEVADA

Passed by the Tenth Session of the Legislature, 1881.

CHAP. XXXIII.—An Act supplementary to an Act entitled "An Act concerning crimes and punishments," approved November 26, 1881, and Acts amendatory thereto and supplemental thereto. [Approved February 23, 1881.]

The people of the State of Nevada, represented in Senate and Assembly, do enact as follows:

SECTION 1. Every person who shall feloniously steal, take, and carry away, lead, drive, or entice away any horse, mare, gelding, colt, cow, bull, steer, calf, mule, jack, or jenny, the property of another, shall be deemed guilty of grand larceny, and upon conviction shall be punished by imprisonment in the State Prison for any term not less than one year nor more than fourteen years.

CHAP. XXXIV.—An Act to fund the Court House bonds of Nye county. [Approved February 23, 1881.]

The people of the State of Nevada, represented in Senate and Assembly, do enact as follows:

SECTION 1. In order to provide for the payment of the outstanding bonds of Nye county, known as the "Court House Bonds," issued by the County Commissioners in the year eighteen hundred and seventy-five, the Board of County Commissioners of said county are hereby authorized and directed to cause to be prepared suitable bonds equal to the amount of said outstanding bonds; said bonds shall be of the denomination of five hundred (\$500) dollars, and each and every bond shall purport, in substance, that the county of Nye, State of Nevada, owes the holder thereof, the sum expressed therein bearing interest at the rate of eight per cent. per annum from the first day of January, eighteen hundred and eighty-one, to any period of time within sixteen years from the first day of January, eighteen hundred and eighty-one; and bonds and interest shall be made payable in lawful money of the United States, and shall be signed by the Chairman of the Board of County Commissioners of said county, countersigned by the County Auditor, endorsed by the County Treasurer, and shall have the seal of the county annexed thereto.

Sec. 2. Coupons for the interest shall be annexed to each bond; said coupons shall be numbered consecutively and shall express the amount of interest due at the respective periods herein named, and shall be signed by the Chairman of the Board of County Commissioners and County Treasurer; said coupons shall be made payable at the office of the County Treasurer on the first Monday in January, eighteen hundred and eighty-two, and annually thereafter until the whole amount of said coupons and bonds are paid.

paid. Upon payment of any of said coupons the County Treasurer shall cancel and deliver the same to the County Auditor to be by him filed in his office.

Sec. 3. It shall be the duty of the Clerk of the Board of County Commissioners of Nye county to keep a record of all such bonds as may be issued under the provisions of this Act, showing the number, date, amount and to whom issued.

Sec. 4. The Board of County Commissioners of the county of Nye are hereby authorized to exchange said bonds, dollar for dollar, for the bonds now outstanding, on the surrender of the same by the holders thereof; the lowest number of the new bonds to be exchanged for the lowest number of the outstanding bonds, and thus on until the highest number is redeemed by the highest number of the new bonds.

Sec. 5. After the exchange of the bonds herein provided for, it shall be the duty of the County Treasurer to set apart a fund for the purpose of paying the principal and interest of said bonds, as the same may become due, which fund shall be known as the interest fund, to create which there shall be levied and collected, in addition to the ordinary taxes for general purposes for the first year, beginning January first, eighteen hundred and eighty-one, and annually thereafter until all the bonds issued under the provisions of this Act shall have been fully paid, both principal and interest, a special tax not exceeding twenty-five cents on each one hundred dollars of taxable property, including the tax on the net proceeds of the mines; said tax to be levied and collected at the same time, and in the same manner as other revenues of said county. The funds derived from this tax shall be applied to the payment of interest accruing upon said bonds as herein provided; provided, that should a surplus remain in said interest fund after the payment of the annual interest, it shall be applied to the payment of the principal, as herein provided for.

Sec. 6. If on the first Monday in January, eighteen hundred and eighty-two, or whenever, on the first Monday in January, annually thereafter, until the bonds issued under the provisions of this Act shall have been paid, there shall remain in said interest fund a surplus of five hundred dollars or more, after the payment of the annual interest, as in this Act provided, the County Treasurer of said county shall advertise in a newspaper published in Nye county, for the space of four weeks, for the surrender of so many of said bonds as the surplus amount of money in said interest fund will pay in their regular order as numbered, commencing with number one, and continuing the payments in that order, according to their number, and in the event that the holder of any of the said bonds or bonds in order of payments, as above provided, shall fail to present his or their bonds for payment at the time and place mentioned in said advertisement, then the said bond or bonds, so advertised, shall cease to bear interest from the time named in the advertisement for the payment of the same; provided, said Treasurer shall reserve in said interest fund an amount sufficient to pay the principal of the bond or bonds so advertised when presented for payment.

Sec. 7. All necessary expenses incurred by the Board of County Commissioners of said county, in carrying out and executing the provisions of this Act shall be paid out of the Contingent Fund of said county.

Sec. 8. This Act shall take effect and be in force on and after its passage.

Slaves' California Fruit Bait. Prepared in California from sound, ripe fruit. An efficient remedy for Dyspepsia, Indigestion, Headache, Heartburn, Acidity of the Stomach, Habitual Constipation, Bloating, Sea Sickness, Kidney and Liver Troubles, Over-indulgence either in Eating or Drinking and all diseases arising from a disordered state of the Stomach. JOTTINGS.

—Justice is assessed twenty-five cents.

—For Buttrick's patterns go to Mrs. Temple's.

—Miss Emma Jones is to be married to-morrow night.

—The report that Charles Johnson was married last Saturday is untrue.

—A. J. Clark, the merchant, has taken Mon Lee's wash house, on a debt.

—Since George Becker's return from the Bay he has decided to build his brewery of brick. The foundation wall, are almost completed.

—Evans Bros. have sent out about a thousand shade trees in the wheat field below the reservoir, with a view to improving the property.

—Mrs. L. C. Savage has closed up her house in town and removed to her ranch on the meadows, preferring life in the country.

—Needham has a handsome new sign. He has bought a lot on Virginia street and intends to build. That looks as if he meant to stay.

—Deputy Sheriff Humphreys came up from Wadsworth last evening with a prisoner sentenced to thirty days for disturbing the peace.

—Attorneys are requested to hand in lists of cases in which they are interested, so they can be put on the calendar ready for the opening of the Court next Monday.

—The past winter was remarkably favorable for sheep. Jack Wilson did not lose a single sheep out of a flock of over 1,200. His loss the preceding winter was 7 1/2 per cent.

—Has any oleomargarine found its way into Reno? Dreadful thought! Perhaps Dives unsuspectingly spread the stuff this very morning on his hot biscuit, and Lazarus in the county jail may have unwittingly plastered on his crust.

An Actress Governed by Presentiments.
The Baldwin Theatre Company was to take the steamer for Portland, Oregon, on Tuesday last, to fill an engagement there. But on Monday night Miss Rogers was seized with a presentiment of danger, and declined to go to Oregon. Therefore the company's Portland engagement was cancelled, and they are now traveling in California. This is probably the company for which Maguire has engaged the Nevada Theatre.

WOOD RIVER.

WHERE THOUSANDS ARE GOING TO SEEK A BETTER COUNTRY.

Rich Ores and Plenty of Them—A Good Field for the Prospector—Cost of Living—Wages—Towns, Stage Routes, etc.

The following account of the Wood River country, which is exciting so much attention this spring, is taken from the first number of the *Bellevue Miner*: "The Wood River Region is located in southern central Idaho, 180 miles west of the Utah & Northern Branch of the Union Pacific Railway. Last year's developments proved that belt after belt of argentiferous galena ore exist all the way from the low hills at the base of the Wood River range northward to the divide of Wood and Salmon rivers, a distance of forty-five miles, and almost continuously from Bay Horse district, near Challis, northwesterly to the south tributaries of Boise river. This makes one of the most extensive silver-bearing districts in the world, being from twenty to fifty miles in width, and 180 to 140 miles in length. Recent developments prove not only this wonderful extent, but a frequency and richness of veins without a parallel in the history of silver mining. The ores are generally heavy galena, fifty to eighty per cent. lead, carrying fifty to one thousand ounces of silver per ton, and of such a nature as to be easily and economically smelted. They are in true fissure veins from one to four feet wide. Prospecting heretofore has been done largely on horseback, and in the most superficial manner, and

THOUSANDS OF RICH DISCOVERIES must yet be made if past experiences go for anything. Some 800 tons of ore were shipped to Salt Lake City for reduction in 1890, and a large proportion yielded \$100 per ton, above all expenses of mining, sacking, shipping and smelting; and freight alone from Bellevue to Salt Lake City was \$37 to \$50 per ton. Hundreds of tons more would have been shipped but for the lack of transportation facilities—and our miners now have large reserves of rich ore awaiting the arrival of freight trains.

IN A NUTSHELL.

Summing this all up, partial as are the developments, there is already enough ore in sight, which could easily be taken out from the North Star, Elkhorn, Bullion, May Flower and Idahoan mines, to keep all the freight teams which have been employed during the past season on the Blackfoot road busy transporting the same from this time on through indefinite future. The veins are so located in the hills that they can be easily worked by short tunnels to almost any required distance. The ores, which are galena and carbonates, together with the country rock, or outlying formation of limestone, contain all the elements needed in smelting, and in just the proportion needed for that purpose. During this season one or two smelters will certainly be erected and put in operation in the vicinity of the various mines, and we may confidently look for heavy shipments of bullion. At present the ore is taken to Salt Lake for reduction in quantities only limited by the want of adequate transportation. All mining men whom we have seen and conversed with on the subject believe in a grand future for the Wood River country, and that this season will see an unprecedented rush to this region.

STAGE DISTANCES, FARES, ETC.

There is only one practicable route from either the east or west to the Wood River and Sawtooth region—via the Union or Central Pacific Railroad to Ogden, Utah; thence northward on the Utah & Northern Branch of the Union Pacific, to Blackfoot, Idaho, 181 miles; thence to Bellevue—via the Blackfoot & Bonanza Daily Stage Line, distance 128 miles; or to Ketchum—via the same line, distance 150 miles. Stages of this line run over recently built first-class roads, crossing the Snake river by the splendid iron bridge at Blackfoot, avoiding dangers of ferries and discomforts of poorly equipped and longer routes. Good dining stations and feed and water for animals on the Blackfoot route, which is fifty miles the shortest route and reaches our camps by twelve hours less staging from Salt Lake, Ogden and all Utah points, than any other.

WHAT IT COSTS TO LIVE.

Flour retails in the Bellevue stores at \$4 50 to \$6 per cwt. It is principally from Utah and Boise valley. Eggs, 50 cents per dozen; butter from

30 to 40 cents per pound; meat, with ham and eggs, 50 cents; board per week, \$8; board and lodging at best hotels, \$12 to \$16; beer (bottled) and whiskey, 25 cents per drink; good American horses, \$100; good bucking cayuses, \$50 to \$75; town lots, from \$50 to \$400; picks, \$2; shovels, \$1 50; bacon 15 to 20 cents; sugar, coffee and all kinds of groceries are not much higher than in the States, after adding freight. Fresh meat 10 to 15 cents per pound; trout free in our mountain streams.

LABOR, WAGES, ETC.

So far but few men find employment at wages. Those thus engaged get \$4 per day for mining and other labor; mechanics, \$5 to \$7 per day. Men who want to prospect can find no better field, but they should bring along some funds for that purpose. It is not a good country to be "broke" in. Next summer, when the various mining, milling, smelting and other enterprises now arranged for are fairly under way, there will be a heavy demand for labor of almost every class.

OPENING FOR CAPITAL.

Men of capital would do well to visit this vast, rich country. There are the finest opportunities for investment that can be found anywhere. Mines can be bought without any risk or loss, for there is ore enough in sight to pay for the claims; and property of every nature, now cheap, will advance in value wonderfully when the great inevitable tide turns in this direction, which must be very soon. Speculations in town lots have already brought handsome sums to residents, and many fortunes will yet be made in Bellevue, Hailey, Ketchum and Galena on corner lots.

This is the best opening in the world for several large smelters. Lead ores very rich in silver are abundant, lime, iron, fuel and water ditto.

The machinery for one smelter is about to be put in position at Hailey, five miles above Bellevue, and several others are talked of, but there is no danger of overdoing this matter.

PROSPECTING.

Those who have been most successful in prospecting are men who make themselves acquainted with the kinds of country rock prevailing at points where rich ores have already been found, rather than go on knowledge previously acquired in California and Nevada. It is a noteworthy fact that the surroundings—quartz, quartzite, limestone, porphyry and granite—in which the ore is found differs very materially on the east and west side of the Big Wood river. Many of the finds have been purely accidental, and men fresh from the east, without previous knowledge of mining, have in several instances struck it very rich.

TOWNS AND CAMPS.

All inquirers want to know 'which will be the big town.' We don't believe one or two towns will monopolize the business of this vast region by any means. There will always be at least three good towns along Wood river. Bellevue, 128 miles from Blackfoot, just now seems to have the lead with its 600 inhabitants and 250 houses. Hailey, six miles above Bellevue, also on Wood river, starts out with bright prospects. Ketchum, 18 miles above Bellevue, with 550 inhabitants, and Galena, 50 miles above Bellevue, with about the same number, are surrounded with rich mines, are pleasantly located and will undoubtedly have one or two smelters each, very soon; all are connected with Blackfoot on the Utah & Northern Railroad by tip-top wagon roads and are not by any means "far out of the world" as some readers might imagine.

New Reno and Alturas Road.

The *Susanville Advocate* says a large and enthusiastic meeting of citizens interested in the new Reno and Alturas wagon road, that is to run via Buntingville and Belfast, was held at Wynn's hotel at Buntingville on Saturday. It was decided to run the road through Byers' Pass, thence by the way of the Coldhurst ranch, to intersect with the Tule and Belfast road. The distance by the proposed road from Buntingville to Belfast is said to be thirteen miles. Milton Cain, Captain Merrill and B. H. Leavitt were elected Trustees. Work is to be commenced at once, and \$380 were subscribed for that purpose.

Wedding Feast at Wadsworth.

W. D. Epperson and bride, just arrived from Michigan, celebrated their wedding in Wadsworth, on Saturday evening, with a dance in Gladding's hall and a wine supper. All their Wadsworth friends participated.

THE WHEATLAND OUTRAGE.

Remorse for the Crime Supposed to Have Led to the Recent Suicide of a Young Man.

The mystery of the famous "Wheatland outrage" has never been cleared up. It will be remembered that nearly two years ago in Wheatland, California, a handsome young woman named Cora Hazle, was, while sleeping in her bed, struck on the head with an iron bar, dragged out of the house and ravished, afterwards being found insensible on the ground. The following from the *Watsonville Pajaronian*, relative to the suicide of young Raymond near Corralitos, seems to throw some light on the mystery:

"A few minutes before he bade the Caudill family good-by, then walked out into the road and shot himself through the back of the mouth, ranging upward, with a rifle. At the inquest it was discovered that the deceased had written two letters, one to his late employer, Frank Williams, and the other to his father, a resident of Marysville. These letters were read, and in them deceased stated that he had contemplated suicide for several months, and in the father's letter language was used which might be construed to mean that there was some great and unknown cause for the act. The suicide was about 19 years of age. During his residence near Corralitos at several times he made remarks about the famous Wheatland outrage, which took place less than two years ago, which led his listeners to believe that the boy knew more about the case than he dared to divulge. It may have been only a boyish freak, to endeavor to impress his hearers that he was to carry a great mystery, but when the language in his father's letter is taken in connection with these remarks, and the singularity of the young man committing suicide for no apparent cause, it does not seem impossible that his chance remarks may have had considerable truth in them. Judge Holbrook has communicated these rumors to Sheriff McCoy, of Yuba county, for his action."

Good Mining Prospects in Reop County.

ROUND HOLE, Reop Co.

March 27, 1881.

Ed. Gazette: I have just got in from the new mines. We have formed a mining district to be known as Cottonwood, and have elected H. F. Norton Recorder. There is plenty of ore and promising quartz. The prospect is good for a big camp this summer. Harrison has sent in goods from Millford for the miners. A townsie called Harriaburg has been laid off. It is thirty miles from Round Hole, on the mountain that divides Pyramid Lake from Winnemucca Lake, fifteen miles from the old Dave Miller place, and ten miles west of the Miller district, with a good road all the way to the camp.

Cattle Shipments from Winnemucca.

Says the *Silver State* of the 25th inst: "Since the first of January to date, 6,951 head of beef cattle have been shipped from this station to the following points: San Francisco, 5,607 head; Sacramento, 204; Oakland Stock Yards, 1,042; Antioch, 50; Rocklin, 89. The shipping season from Nevada is now about over, and it is probable that not more than a few hundred head will be shipped until late in the summer, as the grass-fed cattle of California are now in condition to supply San Francisco with beef."

Norman Horse Sold.

J. A. Perry this morning sold his bay Norman stallion Bourbon to Jesse Parman & Co., of Cedarville, for \$2,000. The horse goes to Surprise valley on Wednesday morning, and will be found there hereafter. He was imported last October, and is a very fine bred animal. He is 5 years old, weighs 1,700 pounds, and is 16 1/2 hands high. He is a very heavy-boned horse, with good action. Mr. Perry has three more horses to sell.

No For Oregon.

John Sunderland received a telegram this morning from Col. Moore to have Sturgeon and Knox put on a full force and press their contracts as rapidly as possible. He says he will start for Reno to-morrow. This will be good news, for if Col. Moore does not build the Nevada and Oregon road it will be a long while before any one else does, in all probability. Talk is cheap but it takes money to build railroads.

The Latest From the J. & K.

J. H. Kinked writes from Pyramid that he has taken off the night shift, as he can get out ore enough in twelve hours to keep the mill running. The new find on the 370 level is proving very valuable. A good strike was made on the 300 level yesterday. The mill is running well.

BY TELEGRAPH.

Suspension of Overland Traffic. COUNCIL BLUFFS, March 29.

No passenger trains from San Francisco have arrived since Saturday, and only two have gone west. The wash-ups are heavy. Great damage has already been done, and more is anticipated both to the Company and to individuals. The bridge between here and Omaha was terribly shaken by the break up of the ice in the Missouri yesterday, and it was for a time a question whether it would go down.

A Threat of Assassination.

BERLIN, March 29.

The Crown Princess Victoria has received an anonymous letter declaring that Prince Frederick William will be murdered during the ceremonies at St. Petersburg. The letter bears the Berlin post-mark.

Peace After Battle.

NEWCASTLE, March 29.

A messenger from Potchefstroom reports that the place surrendered today. Peace was signed after hard fighting, in which 19 British soldiers were killed and 900 wounded. The Boers captured 3,000 pounds of ammunition and two guns.

Personal.

Mrs. Lisle Jamison went below this morning.

Mrs. J. B. Williams' baby was no better this afternoon.

I. D. Huntson, of San Francisco, is visiting Reno. He finds many old friends here.

Samuel C. Wright, of Carson, was expected to arrive from the East last night, but did not.

Jesse Parman, of Surprise valley, is in town. He bought one of Perry's horses.

New Telegraph Line.

Frank Bell will in a few days have a force of men engaged in setting up a telegraph line along the Carson & Colorado railroad. The materials for the line and the instruments, etc., have already arrived.

Scalded to Death.

Last Friday, on a ranch twenty miles south of Carson, a 4-year-old boy fell into a kettle of scalding water left standing in the yard. The child's flesh came off his body in strips, and he suffered terrible agony before death ensued.

Looking After Truckee Trout.

Joseph B. Brogan, of Prosser Creek, has been appointed by the California Fish Commissioners an inspector of fish-ways on the Truckee river and its tributaries, to see that the laws for the protection of fish are enforced.

Shiloh's Consumption Cure.

This is beyond question the most successful Cough Medicine we have ever sold, a few doses invariably cure the worst cases of Cough, Croup, and Bronchitis, while the wonderful success in the cure of Consumption is without a parallel in the history of medicine. Since its first discovery it has been sold on a guarantee, a test which no other medicine can stand. If you have a Cough we earnestly ask you to try it. Price 10 cts., 40 cts., and \$1.00. If your lungs are sore, Chest or Black Lungs, use Shiloh's Potent Plasters. Price 25 cts. Sold by Osburn & Shoemaker Drug Store, Reno, Nevada.

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, etc., I will send a recipe that will cure you. FREE OF CHARGE. This great remedy was discovered by a missionary in South America. It is a self-addressed envelope to the Rev. JOSEPH T. LAMAR, Station D, New York City, may-7-00-D&W

Finest brands of old Port and Sherry wine.

Mount Vineyard, French claret and other wines by the gallon or bottle at the Wine House.

All watches and jewelry repaired or made to order.

Is guaranteed as represented at J. Fredrick's.

If you want to save money, go to J. Fredrick's and buy your watches, clocks and jewelry, where there is no advantage taken. 5015

A Good Housewife.

The good housewife, when she is giving her house its spring renovating, should bear in mind that the dear inmates of her home are more precious than many houses, and that their systems need cleansing by purifying the blood, regulating the stomach and bowels to prevent and cure the diseases arising from spring malaria and miasma, and she must know that there is nothing that will do so perfectly and surely as Hop Bitters, the purgative and tonic of medicine. See other columns.

One look at Geogge's display influences the public who carries the best and most substantial stock in Reno.

For a good New Orleans Chocolate Cocktail—the finest drink in the State, and for the famous Knickerbocker "old well known" in San Francisco by the lovers of fine drink, and for the genuine Old Rye and Rock, go to the Capital Saloon, Commercial Row, next to the Postoffice, as these drinks are only sold there.

Slaven's Cherry Tooth Paste.

An aromatic combination for preservation of the Teeth and Gums. It is far superior to any preparation of its kind in the market. To large handsome Opal pots, price 50 cents for sale by Osburn & Shoemaker.

The celebrated Dunham whiskey, A. A. whiskey.

Old Time and other favorite brands, also the well-known Grande Marnes and other Cognac by gallon or bottle at the Wine House.

If you want fresh groceries, hard or tinware at bedrock prices, go to Chas. Knust. 5017

Have you seen Geogge's new invoice of Jewelry, right from the manufacturers' hand.

Have "Grandfather's Clock" repaired at 5017-17
